

# Stone Carpet Range

In today's fast paced world, designers are often looking to create natural and relaxing environments for leisure, retail and living space. Degafloor has worked with many designers to deliver stunning floor finishes that incorporate naturally occurring materials, allowing internal spaces to offer glimpses of the great outdoors.

## Stone Carpet

The Degafloor stone carpet range utilises advanced fast curing resin technology to encapsulate natural and coloured aggregates or finest marble chips in a clear resin matrix. The stunning result is ideal for a wide range of installation environments and offers excellent slip resistance, making Degafloor Stone Carpet ideal for both internal and external use.

## Features & Benefits

- **Degafloor cures fully in 2 hours at temperatures down to -30°C.**  
Minimum downtime, rapid refurbishment, fast track new builds.
- **Exceptional bond to existing substrates and a chemical bond between layers creates a truly monolithic floor.**  
Durability, longevity, ability to overlay existing floors.
- **Bespoke finishes available.**  
The samples shown reflect only a fraction of those we can create.
- **Exceptional resistance to UV light, weathering, chemical and physical attack.**  
Capable of withstanding almost any internal or external environment.
- **Tailored slip resistant finishes.**  
Degree of slip resistance can be varied depending on the environment and specific requirements.
- **Elastic and does not shrink.**  
Resistant to cracking, minimal joints creating better detailing.

## Typical Installation Areas

- **Retail**
- **Pubs and Clubs**
- **Leisure Venues**
- **Public Walkways**
- **Vehicle Dealerships**
- **Residential Housing Developments**
